G.O.RT.No. 588 Dated: 16-10-2020.

Read the following:

1. GoI, MoJS, DDWS D.O.No.11011/58/2020-JJM.I, Dated:01.10.2020.
2. Minutes of Apex Committee meeting held on 29.06.20 by the Chief Secretary to Government of Andhra Pradesh.

** **

ORDER

Government of India has launched Jal Jeevan Mission (JJM) to provide Functional Household Tap Connections (FHTCs) to every rural household by 2024 and issued Operational Guidelines for implementation of the programme. Following are the major aspects of the programme:

**Objective under JJM:**

- To provide Functional Household Tap Connection to every rural household with minimum service level of 55 LPCD to public institutions, viz. G.P building, School, Anganwadi centres, Health centres, etc.,
- Undertake source Sustainability activities through convergence by:
  - Rainwater harvesting.
  - Ground water recharge.
  - Management of household waste-water for reuse.
- Identify priority planning of
  - Quality Affected Habitations.
  - Drought Prone Areas.
  - Aspirational Districts (Vizianagaram, Visakhapatnam and Kadapa).
  - SC/ST Habitations.
  - Sansad Adarsh Gram Yojana (SAGY villages)

**Institutional setup involving:**

- State Water and Sanitation Mission (SWSM)
- District Water Sanitation Mission (DWSM)
- Village Water Sanitation Committee (VWSC)

- GP will implement the in-village piped water supply infrastructure and O & M Support Activities and Water Quality Monitoring and Surveillance (WQMS).
- Support Activities which include Information, Education and Communication activities, Capacity Building, Third Party Inspection, MIS, Implementation Support Agencies, Project Monitoring Units at state and district level, upskilling of labour in various trades etc.5% of fund allocated shall be used for these activities.
- WQMS activities which include NABL accreditation of labs, testing of drinking water sources, procurement of FTKs and capacity building for testing of water sources through FTKs etc. 2% of fund allocated shall be used for these activities.

2. An overall state action plan and annual action plan has been prepared for the FY 2020-21 which was submitted to Government of India. Estimated cost for providing FHTCs to balance 63.78 lakh households out of total 95.66 lakh households under JJM is Rs. 10,409 crores. Government of India has approved Annual Action Plan for the FY 2020-2021.

P.T.O.

3. Accordingly, Government vide G.O.Rt.No.556, Panchayat Raj & Rural Development (RWS-II) Department, Dated:05.10.2020, has accorded administrative sanction for an amount of Rs.4,800 crores for providing drinking water facilities to all rural households through retrofitting where the villages having piped water supply in the first phase.

4. The Hon'ble Prime Minister has launched **"100 days campaign"** on 2nd October, 2020 to connect all Schools, Anganwadis, Health Centers, G.P buildings and other public institutional buildings in rural areas and provide safe and adequate drinking water by 10th January, 2021 and bring awareness among Rural Community, Anganwadi workers, School Teachers, School Management Committees, etc. about the importance of Water, Sanitation and Hygiene (WASH). Key components of the campaign are:

- provision of piped water supply for Anganwadi Centres, Schools including Aashramshalas / Tribal residential hostels for drinking, cooking mid-day meals, hand-washing and toilets;
- provision of piped water supply to other public institutions, viz. GP buildings, community centres, wellness centres, health centres, community toilets, etc.
- sensitization and barrier-free & customized access to drinking water facilities for *divyang* students and teachers.
- solar based stand-alone water supply systems in sparse settlements/ habitations in hilly, forested, tribal areas, deserts or any other areas where power supply through grid is an issue;
- wherever providing piped water supply through tap connections in schools, anganwadis, aaramshalas is not possible during this period, safe water to be ensured through Community Water Purification Plants (CWPPs), purely as an interim measure;
- grey water management in-situ reuse;
- rainwater harvesting in these institutions especially in water stressed areas, drought-prone, hilly, forest and tribal areas;
- use of water saving devices like aerated faucets, push knob faucets, water saving flush system etc. to encourage water use efficiency;
- planning and preparation to ensure functionality and regular O&M of these water supply systems on long-term basis;
- regular water quality testing activities and water quality surveillance activities in schools, Anganwadis, Aaramshalas;
- financial arrangements under JJM along with convergence of resources through MNREGS, 15th FC grants to PRIs, DMDF, CAMPA, MP/MLA LAD, community contribution, CSR funds, etc. and integrating the water supply to these institutions as part of the Village Action Plan under JJM and Gram Panchayat Development Plan (GPDP);
- Online orientation and sensitization of critical service providers at state/ district/ sub-district level to provide piped water connections to these institutions in a time-bound manner and long-term regular upkeep and operation & maintenance;
- engaging sector partners and implementation support agencies (ISAs) to develop content for capacity building, community tools, IEC campaigns, monitoring and reporting of WASH institutional dashboard etc.; and
- following key Covid-19 prevention protocols throughout the implementation of 100 days campaign.

5. The Rural Water Supply & Sanitation Department shall be the line agency for implementation of the programme in collaboration with departments of School Education, Women Development & Child Welfare, Medical and Health, Panchayati Raj and Rural Development, Social, Tribal and BC Welfare.

Cntd..Page-3

6. For successful implementation of the programme, all the concerned Departments are hereby requested to collaborate and coordinate with focus on the following:

- Providing tap connections through piped water supply schemes.
- Providing stand-alone systems where the villages are not having piped water supply schemes.
- Supply of safe and hygienic water.
- Campaign for regular upkeep and operation & maintenance of the connections.
- Campaign for Health, Water, Sanitation and Hygiene (WASH) activities.
- Baseline Survey has to be completed and Action Plan has to be prepared by 31st October 2020 ensure completion of the campaign by 10th January 2021.
- Nodal Officer to be appointed by each department for day to day coordination and for daily monitoring and effective implementation of the campaign.
- Financial arrangements under JJM along with convergence of resources through MNREGS, 15th FC grants to PRIs, DMDF, CAMPA, MP/MLA LAD, community contribution, CSR funds, etc. to be ensured.
- The RWS & S Department shall ensure that testing of water samples in all public institution buildings in rural areas is conducted free of cost. Samples for water testing shall be collected and sent to the nearest RWS&S water quality labs by the concerned officials of the respective institutions.
- The RWS&S Department and Gram Panchayats to extend the tap connections to all public institution buildings in rural areas up to their institutional campus free of cost. The Head of the institutions shall apply to the local GP for the purpose.
- All the HODs to issue further directions to their respective department's field functionaries for successful implementation of the campaign.

7. The Concerned Departments are therefore requested to take immediate necessary further action in the matter.
